

Dear Parent,

## New Online Careers Resource

We are really pleased to have invested in a fantastic online resource that has just been launched to our Year 7 to 10 students. Unifrog provides a broad platform where your son or daughter can access tools to get them thinking about future pathways based on their personal interests and the subjects they enjoy. There is information on careers, higher education at UK and international universities, apprenticeships and work experience. In addition, there is a whole host of information that young adults will find useful – some will be school-related around study skills and exam preparation and some will be more personal around well-being topics.

We can now provide you with parent access to Unifrog so that you can also benefit from the wide range of information it offers. This can help you to stay informed of the latest careers, higher education and apprenticeships information and support any conversations you may be having with your child about their long term plans. Log on to [www.unifrog.org/code](http://www.unifrog.org/code) and use the form code parents\_piggott. Please ensure there are no spaces when you type the code. Additionally you can watch the webinar for parents to get an overview [https://www.youtube.com/watch?v=KksyelihOAw&feature=emb\\_logo](https://www.youtube.com/watch?v=KksyelihOAw&feature=emb_logo)

If you have any questions about Unifrog please direct them to Mrs Chipperfield –  
Chipperfieldl@piggottschool.org.

Yours sincerely

Mrs Chipperfield
